

MORTGAGE BUILDER® SUBSCRIPTIONS

Compliance. Efficiency. Agility.

AN ALTISOURCE® BUSINESS UNIT

Mortgage Builder, an Altisource company, provides innovative Loan Origination Systems (LOS) that adapt to your unique business. Working with Mortgage Builder is about more than just technology – it is a partnership that gives you access to a team of mortgage experts backed by a global mortgage and real estate services company.

The Value of a Subscription

Partnering with Mortgage Builder has three major components:

► **Expertise.**

Mortgage Builder employs many industry leaders, and no one knows the mortgage business better – whether it be the latest regulations or emerging technology. Working with Mortgage Builder allows you to tap into these resources so you can continuously advance your business.

► **Influence.**

As an enterprise solution provider, Mortgage Builder innovates and evolves the products to stay one step ahead of a rapidly changing industry. As a partner of Mortgage Builder you have access to product roadmaps and open dialogs with management to ensure that your interests are well represented.

► **Support.**

Partnering with Mortgage Builder gives you live and email support, upgrades, migration assistance, and educational resources. This, combined with a hosted data center and an on-line support center, makes sure you are maximizing loan closures 24x7.

Expertise, Influence, and Support are included in a Mortgage Builder Subscription, and ensure a successful partnership.

A Mortgage Builder Subscription includes

- *KPMG SSAE16 certification*
- *Enterprise-class support*
- *Product upgrades*
- *Support for latest compliance regulations*
- *Influence over product roadmaps and patches*
- *Access to compliance experts*
- *Loan origination best practices*
- *Customer resource portal*
- *Established user conference and regular workshops*
- *Hosting with back-up and disaster recovery*
- *State-of-the-art servers*
- *Test account*
- *IT maintenance*
- *Predictable costs*

Mortgage Builder Delivers Predictable Costs

A Subscription is a part of all Mortgage Builder contracts. Pricing, which is designed to be transparent and rewarding of success, has no hidden costs, user fees, or surprise invoices so you can budget with precision. Mortgage Builder also builds in automatic volume discounts into every contract so your success earns a lower cost per loan without having to renegotiate.

Having a Mortgage Builder Subscription lowers overall operational costs. Because the LOS is hosted, you do not need to invest in or support the IT infrastructure needed for the system, install patches and updates, or worry about scalability. Mortgage Builder maintains the state-of-the-art servers 24x7 and performs regular back-ups so you can focus on closing mortgages.

A partnership with Mortgage builder not only provides you with the loan origination software that you need, but also a team that supports every aspect of your business.
